3. Reversal Winners: 1st, 2nd, and 3rd quarters – \$70 each
4. Reversal Final Score – \$140 (4th quarter or overtime)
5. First Score of Game – \$40 for entire row
6. First Field Goal of the Game – \$100 for the winner, \$50 for reversal

Winning Number Examples

The basic winning numbers come from the **last digit** of each team's score.

Example: Patriots 21 – Bears 17

- Winning numbers: Patriots **1**, Bears **7**
- Reversal: Patriots **7**, Bears **1**

For the first score of the game, the entire row or column of the team that scores wins \$40 each.

If a touchdown 6 is the winning number, if a field goal 3 is the winning number, if a safety 2 is the winning number

Example: Bears score first with a touchdown, number **6** wins.

The first field goal of the game pool is based on the yardage of the kick.

Example: For a 41-yard field goal

the kicking team gets **4**, the opponent gets **1**.

If your box is (4,1), you win **\$100**. The reversal (1,4) wins **\$50**.

If there are no field goals in the game, \$100 goes to the final winner and \$50 to the final reversal winner.
